

## Custom Panel Design and Fabrication

AC Corporation's Panel Shop technicians have many years of experience in component assembly and special controls. This asset helps in meeting critical schedules and maintaining the highest quality possible.

### Services

- ▶ Complete panel design, fabrication and assembly
- ▶ Customer acceptance testing at AC Corporation facilities
- ▶ CAD drawings of panel layout and wiring

### Systems Developed and Designed include:

- ▶ Pneumatic
- ▶ Electrical and Control
- ▶ Metering
- ▶ Micro-Processed Based Controls
- ▶ Process Monitoring and Alarm

- ▶ Customized UL listed panels built to NEMA1, NEMA 12, NEMA 3R, NEMA 4 and 4X standards.
- ▶ Panel design supported by our staff of professional engineers.
- ▶ Enclosure size, shape and components tailored for each application. This enables AC Corporation to cut valuable delivery times.
- ▶ Panels certified in both *UL508* and *891* classifications.
